PROFESSIONAL

AppDynamics, Senior Engineer

Custom Dashboards & Reports Team

Built a competition surpassing reporting service that allows any user created dashboard visualization to be turned into a scheduled report. Completed in less than 6 months, worked across teams (UI, Server, Install, Ops).
 - Built using JS, Angular, Node, Phantom, Java.
 - SaaS and On-Premise versions. Horizontally scalable
Other core dashboard, UI infrastructure and tools work.

U.S. Navy, Lieutenant commander

VMFAT 101, SOTF-C, VFA 131

Decade+ experience w/ elite military units.

F/A-18 Carrier Fighter Pilot – Instructor

Operations experience in OIF & OEF

Electronic Warfare advisor to SF in Iraq

Ops, Maintenance & Legal leadership exp.

Expert Skills Developed:

Planning, Briefing, Risk Analysis

Operations, Teamwork, Leadership

Delegation and Accountability

A Mission Completion Mindset

SOME TECH TERMS, SKILLS & INTERESTS

JS, Angular, Node, Phantom, SPA, HTML5/CSS, REST, UX/UI, Iterative, e2e, Team, Git

AWS, Python, Functional, OOP, Distributed Systems, TypeScript, Java, Bash, Linux, Yeoman, Grunt

Hadoop, Star Cluster, C, OpenCV, ML, Octave, AI, Design, Scala, Twisted, Mongo, Redis, Mobile

PROJECTS

Sendify, *The Internet in your email*

JS, Angular, Node, Phantom, Redis, Mongo, AWS

Crowdabout, *Crowd tracking app*

JS, Angular, Firebase, Google Maps

Parallel Spider, *Real-time website analysis*

JS+A, Python, Twisted, Hadoop, Star Cluster, Redis

EDUCATION

M.S. in Computer Science, DePaul University

Focus in AI and Development / with Distinction

B.S. in Math Applied Science, UCLA

Focus in Physics, Algebra, Applied Math

Coursera: ML & Startup Engineering classes
UCSD Extension: Web and Java certs
Military: Leadership, aviation, tactics, risk
